The Only HP Palmtop Upgrade That Has It All.

To get the most from your HP 100/200LX palmtop, you need 3 advanced upgrades on 1 convenient PCMCIA card. First, you need to send and receive both faxes and data at an exceptional 14,400 bps speed. Second, you need fax/modem software that operates easily with the same HP function keys and commands you already use ... without the hassle of downloading software and without consuming precious hard disk space.

Third, you need Flash memory for fast, easy access to all your software applications and for efficiently storing data. Plus you need to fax from and receive faxes into your Flash memory for extra convenience. And, most of all, you need the flexibility to use all your upgrade features together or independently, without inserting and removing separate fax/modem and memory cards. Now you can have it all with ThinFax 1414LXM.

ALL THE ADVANCED UPGRADE FEATURES YOU NEED ... ON 1 CONVENIENT PCMCIA CARD.

EXP's award-winning MiniFax™ software. High-speed fax/modem. 2 or 4 MB Flash memory. They're all built into the ThinFax 1414LXM card. That's why ThinFax 1414LXM is the one upgrade that's a must for your HP palmtop. So call the toll-free number today for complete ThinFax 1414LXM specifications and the name of an EXP dealer near you.

Connectivity Solutions

RadioMail–the two-way interactive, wireless messaging service enables your HP palmtop to become your personal communication device. You can maintain digital dialogues with others throughout the day or night. It's like a nationwide cellular phone service, but it's for data only, offered at a fixed monthly rate without usage or roaming charges.* You'll no longer need to carry around your pager.

Send Wireless E-mail, Pages, and Faxes All From Your HP Palmtop!

Someone, somewhere sends you a message...

Over the Internet to your RadioMail address...

RadioMail transmits it to you through the air...

You get it, and can respond immediately.

Constant Access. With RadioMail you're automatically in touch without ever dialing in. Instead, messages come directly to you, much like a pager. You're notified. You respond. You get back to business. Easy. Communications become practically instantaneous–thoughts become actions. You maximize your time.

Universal Communications Just Became Easier. Exchange messages with users on the Internet, on public mail systems including Applelink, America Online, Prodigy, CompuServe, MCI Mail, and on LAN mail systems including cc:Mail. You can even send messages to fax machines, pagers, and Personal Digital Assistants (PDAs).

Never Lost in the Crowd. RadioMail guarantees delivery of your messages and will store them for you if you decide to take a "vacation."

A "Ready to Go" Package. Comes complete with an RF modem, cable, software, and a leather carrying case. Service starts at $89/month for unlimited messaging.

Call **1-800-597-MAIL** for more information on how to get started!

Introducing...

SMART Modular's combination Fax/Modem & Memory PCMCIA card exclusively for you as an HP100LX or 200LX user!

Wanna be able to...

- Print or store those faxes you send or receive?
- Transmit, receive or store large data files?
- Add hard-drive capability to your LX by using the memory portion of the card?
- Easily and conveniently fax files and buffer them in the memory portion of the card?
- Get over twelve hours of active connect time, thus saving your precious battery (20mA active, less then 3mA sleep)?
- Use more full-featured modem software?
- Not have to constantly swap out various PCMCIA cards to do your work?

Smart's Fax/Modem & Memory PCMCIA card had the LX user in mind by designing a combination card to work in the LX single PCMCIA slot system, and give you –the user–everything you've been looking for.

It combines a 14,400 bps fax/modem with 2 MB, 4 MB or 6 MB FLASH memory options, depending on how much memory you need.

"In our opinion, the SMART Modular Fax/Modem & Memory card is well worth the investment for the serious HP 100/200 LX user"
–Portia Isaacson, Cards and Slots PCMCIA Letter, Sept. 7, 1994

Fax/Modem & 2 MB memory: $349
Fax/Modem & 4 MB memory: $399
Fax/Modem & 6 MB memory: $449

Please note: Fax software may not be available.
